

Project Engineer

Employment Type: Permanent (Full-time)

Location: 10 Jalan Samulun, Singapore 629124

Responsibilities

- Assist the Project Manager / Asst Project Manager in leading and managing the project on site and updating of project plan, progress and final reports needed for the periodic management meetings.
- Monitor compliance of all project manpower, including sub-contractors on the shipyard management system and achieve the objectives and targets related to quality, occupational health, safety, security and environment.
- Lead the daily vessel safety coordination committee meeting and manage the activities to ensure on-time results and responses to action items including follow-up with other departments, external suppliers and sub-contractors.
- Plan and manage project budget including selection and management of sub-contractors.
- Coordinate with other department managers to monitor milestones and project deadlines.
- Analyse data and information to recommend and ensure continuous process improvement.
- Perform any other tasks as may be assigned by the supervisor.
- Ensure compliance to relevant government regulations and company's quality, safety, health and environmental (QSHE) policies, practices and procedures at all times.

Requirements

- Diploma in Engineering, Naval Architecture or related discipline.
- No experience required.
- Excellent communication skills, meticulous, resourceful, able to multi-task.
- A team player with the ability to work independently as well as in a team.
- Preparedness for overseas assignments at times.

Interested applicants to email your resumes to **hr@bakertech.com.sg** stating expected salary and earliest possible start date.
