

# Quality Policy Statement

Baker Engineering Pte. Ltd. designs and builds mobile offshore units and critical equipment/components for the offshore marine industry and is set up to focus on design, engineering, project development and construction of mobile offshore units for the offshore marine oil and gas industry.

We strongly believe that our Clients expects a high Singapore standard of service from our Company and we aim to continually improve the service and product quality to meet the expectations.

We are strongly driven by the following **G.R.I.T** management principles:

- **Guide** and nurture staff competencies, creativity and accountability through appropriate development programs and show strong management involvement and commitment.
- **Resilience** in achieving our commitments for quality, cost and schedule
- **Inculcate** mutually profitable relationships with our customers, ensuring their long-term success, through the understanding of their needs and the needs of their customers
- **Tailor-made** solutions for every customer while demonstrating unparalleled quality standards in every task that we perform.

Baker Engineering Pte. Ltd. aims to achieve the above by implementing a management system that complies with the requirements of the International Standard ISO9001:2015.
